discussing final events of the
project.

Evening full of showcase
concerts in the clubs.

Day 5 (Saturday)

Return to Prague.

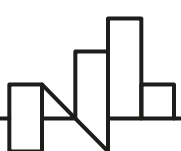

Evaluation

The aim of our professional visit was to attend the by:Larm conference and meet partners to discuss our projects and future co-operations. With NOPA we were planning the final events of the Hortus Musicalis Broumov project, we met together with our October resident Ann-Mari Pettersen regarding the details of her stay in Broumov and we also dealt with completing the requested data for the new bilateral application. Additionally we together met with Arts Council Norway who is the operator of EEA grants in culture and where we presented the results of our current project.

We also visited the Baerum Kulturhus in Sandvika regarding the further cooperation on «Møt Praha» project which will be running from January to June 2023. A concert of our Hortus Musicalis Broumov resident Kristina Barta and also exhibition by Michal Škapa aka Tron will be included in the programme.

The visit fully met our expectations.
